

America in Santiago, Chile, a preliminary report on the research and a copy of all data obtained (on magnetic media), and also, within six months starting from the conclusion of the research, must send to that entity a copy of the final report, and, if available, the results obtained, through the Embassy mentioned above.

TO COMPLY WITH THE ABOVE THE FOLLOWING MUST BE TAKEN INTO CONSIDERATION:

- a.- Before the work begins, the executors must approach the Maritime Authority in Valparaiso to request information regarding safety measures to be adopted during these operations at sea.
- b.- The ship must transmit its position (Q.T.H.) daily at 12:00 Z and 24:00 Z in accordance with the Chilean procedure for notifying the location of ships (CHILREP), addressed to DIRECTEMAR through the coastal radio stations. The ship should also inform the Maritime Authority at Punta Arenas when it leaves Chilean jurisdictional waters.

Register and transmit to whom it may concern for information and execution.
