

Title: Pre-Cruise Meeting; Planning & Checklist	Chief Scientist: DICK	Ship: MELVILLE	Date of Meeting: 7/26/02
	Cruise Name:	Prepared By: ALTHOUSE	Page: Page 2 of 2

2. Dr. Dick said SEAVIEW software should be considered for processing multi-beam data.
3. 2 rock saws 1 science, 1 SIO
4. Computer suite - Ron Moe will provide description of recently updated suite on MELVILLE for distribution to all concerned.
5. Dr. Dick asked about maximum winch speed during dredging. When informed that winch is operated at approximately 60 meters per minute, he expressed disappointment that it could not operate routinely at 100 meters per minute.
6. Ron Comer recommended that Science Party arrange for a container to ride the ship to put rocks in and then ship back to WHOI. Science party agreed to arrange.
