Table identifying the coordinates and transit information for seven sampling stations that will be occupied in Mexican waters on next year's research cruise aboard the RV New Horizon. The cruise will start in La Paz, MX (July 10, 2008) and end in San Diego, CA (August 8, 2008). The map below illustrates the geographic proximity of the seven stations. For quick orientation, Station 1 is located farthest north in the Gulf of California. Stations 2 through 7 are identified by the symbols plotted clockwise relative to the symbol from Station 1.
